

LOOKING FOR A NEW CHALLENGE?

FIPA GmbH is a growing, innovative company specializing in vacuum, gripper, and lifting technology worldwide. In addition to developing and distributing high-quality products, FIPA also offers customized material-flow system solutions.

Highly committed and dynamic staff who value open communication and modern work processes and who wish to fully contribute their ideas are the basis of our success.

We are looking for a Design Engineer to join our dynamic team in Ismaning, near Munich as soon as possible.

DESIGN ENGINEER (MALE/FEMALE)

Your working environment:

Be a part of a modern, future-oriented company. In addition to committed, dynamic colleagues and an international field of action, interesting areas of operations that hold out demanding tasks, a high degree of personal responsibility and fair pay await you.

Your tasks:

- Design of end of arm tools, cutting stations and special machines
- Development of customer-specific solutions
- Creation of product-related documents and technical drawings for all realized projects
- Close cooperation many different departments, project management, purchasing, technical sales and field sales
- Create bill of materials
- Assumption of project engineering tasks within the scope of new designs as well as customer specific production
- Active support in achieving the goals of the Business Unit

Your qualification:

- Completed engineering studies (preferably mechanical engineering) or state-certified technician or equivalent training
- Several years of professional experience in the technical design of automation elements (ideally plastic handling)
- Very good CAD knowledge (preferably AutoCAD/Inventor)
- Fluent knowledge of English and German (spoken and written)
- Assertiveness and strong communication skills
- Ability to work efficiently and solution-oriented
- High degree of flexibility, creativity and technical understanding
- Team orientation, but independent, self-motivated and self-reliant way of working

Interested? Please send your complete résumé with salary expectations and earliest possible starting date to:
