To enhance our Customer Service worldwide, we are looking for new skilled **Field Service Engineers** for the Benelux customers.

Our ideal candidates must have strong technical background, previous experiences as Service Engineer, passion and enthusiasm for machine tools technologies (CNC) and manufacturing processes.

Tasks and duties to be responsible for:

- Main Customer Service's activities: machine installations, equipment and tooling tests at customers' site; equipment repairing and maintenance activities;
- After-sales training: the training is dedicated to the Customer's operators, in Italy and at customers' site, and it is focused on the following topics: presentation of the machinery and its working processes; tooling set-up; maintenance operations; software-suite (CAD/CAM);
- Support the effectiveness and efficiency of the After-Sales Customer Service, to improve the quality of BLM GROUP Global Service;
- Contribute to keep up the excellent performances of BLM GROUP products at Customers' site;
- Support the most effective management of the spare parts.

Essential requirements:

- Technical education, related to one of the following subject: Mechanical Engineering, Electrical/Electronic Engineering, Mechatronic, Industrial Automation;
- CAD/CAM competences and CNC programming;
- Strong will to learn and improve the technical know-how;
- Available to conduct intensive training sessions at our HQ in Italy;
- Good manual and problem solving skills;
- Willing to frequently travel (70% / year)
- Dutch: mother tongue
- Foreign languages: English, speaking, reading and writing (level B1 in EU classification)

Preferential requirements:

- Knowledge of the laser technology and its applications;
- Knowledge of the metal-bending technology and mechanical forming technology;
