New goals, new approach – We are looking for reinforcements!

SIMPAC is South Korea's market leader in forming technology and, with over 40 years of experience, is also one of the leading international press manufacturers. The customers of SIMPAC belong to various branches of the metal processing industry: Automotive industry and its suppliers, manufacturers of domestic appliances and household goods, companies in the furniture and electronics industry and companies in the aerospace industry.

We are looking for a new employee at our sales and development location in Bodnegg (Southern Germany):

Service manager in mechanical and plant engineering (m/f)

YOUR AREA OF RESPONSIBILITY

- Strategic and operational development and further development of the service organization
- Planning, organization and coordination of all work processes in the service area
- Close cooperation with internal and external partners and suppliers
- Customer and business-oriented service management
- Structured, autonomous and efficient way of working
- Securing and increasing service quality and customer satisfaction

WHAT WE EXPECT FROM YOU

- Ideally, management experience and several years of professional experience in the service environment and in process management
- Know-how in the field of technical products, preferably press construction
- Good business know-how
- Knowledge of PLC programming and visualization is an advantage (Siemens S7, TIA controllers and WinCC)

- Personal affinity for services and customer proximity
- A high degree of motivation, initiative and a target-oriented way of working
- Good communication and teamwork skills
- Enthusiasm for technology and enjoyment of further development
- Sound knowledge of written and spoken English
- Proficiency in Microsoft Office
- Willingness to travel

WHAT WE OFFER

- Flexible, family-friendly working hours
- Attractive remuneration and profit sharing
- Company pension scheme
- Modern workplace with permanent employment contract
- Challenging projects in a future-oriented environment
- A highly motivated team with a friendly and pleasant working atmosphere
- Training and coaching
- Low-peak hierarchies and short decision pathways
- Scope for creativity and ideas
